

# Admission Information

## Master's Degree Programme in Informatics (University of Klagenfurt)

### Degree programme code UL 066 911

#### Preface

In accordance with § 64 (3) of the Universities Act, the admission to a Master's programme is contingent upon the successful completion of a relevant Bachelor's programme, or University of Applied Sciences Bachelor's programme, or other equivalent programme at a recognized domestic or foreign post-secondary educational institution. Where equivalence has been established in principle and only certain supplementary qualifications are required for full equivalence, the Rectorate shall be entitled to tie the determination of equivalence to examinations to be taken during the respective Master's programme.

#### Definition of "relevant Bachelor's programme"

Examples of relevant degree programmes include the Bachelor's programme in Applied Informatics at the University of Klagenfurt, the Bachelor's programme in Informatics at the Universities of Vienna, Innsbruck, Linz, Salzburg and at the Graz University of Technology as well as the Bachelor's programme in Software & Information Engineering at the Vienna University of Technology. In the event of the successful completion of a different relevant Diploma or Bachelor's programme or University of Applied Sciences Bachelor's programme, it is also possible to gain admittance to this Master's degree programme. Relevant Bachelor's programmes or University of Applied Sciences Bachelor's programmes are characterised by a minimum scope of 75 ECTS credits overall in the following areas of core computer science subjects. These are, for instance, the principles of applied informatics and of software development, technical principles and systems software, theoretical computer science, software engineering, databases and information systems, artificial intelligence, machine vision, speech processing, pattern recognition, multimedia systems, computer architectures, computer networks, embedded systems, information and system security, and human-machine interaction.

**Frequent transfers**

Graduates from the following Bachelor's programmes or University of Applied Sciences Bachelor's programmes frequently transfer to the Master's degree programme:

<b>Bachelor's Programme/ University of Applied Sciences Bachelor's Programme</b>	<b>Institution of Higher Education</b>	<b>Admission</b>
BA Informationsmanagement (all versions of the curriculum)	University of Klagenfurt	with conditions
BA Technische Informatik (all versions of the curriculum)	Vienna University of Technology	without conditions
BA Informatik (all versions of the curriculum)	Graz University of Technology	without conditions
BA Geoinformation und Umwelttechnologien Studienzweig Geoinformatik (Versions of the curriculum since 2005)	Carinthia University of Applied Sciences	with conditions

Please note that in the event of the positive completion of elective subjects in the above-mentioned areas, it may nonetheless be possible, under certain circumstances, to gain admittance without conditions.

Please note that the admission to the Master's degree programme is also possible on the basis of other Diploma and Bachelor's programmes. The examples listed above do not claim to be exhaustive.

For questions about admission, please contact Assoc.Prof. Dr. Peter Schartner ([spl-informatik@aau.at](mailto:spl-informatik@aau.at)).

Please note that this information sheet does not constitute grounds for claiming the legal right to gain admittance.
