"My exchange in AAU opened up my eyes. In the beginning, I was still unsure about myself but shortly after I became more aware of how good I am and how much better I can do.

In these six months, I did a lot of brand-new things, learned not only for my academic formation but also, I got some pretty dope lifetime lessons and **new experiences that I will forever treasure.**"

**Universidad Centroamericana (Nicaragua)**

"My courses at AAU focused more on the **practical skills** that geographers will need after graduation. I can give you an example. I had a course that first focused on different methods to collect data from the nature. We studied the methods first by reading literature. [...] but here at AAU the course did not end with the literature. We actually left to Italy to do an excursion and practice using the methods that we have already learned previously."

**Iina, 21/22**  
**University of Eastern Finland (Finland)**

"I have been very grateful to call Klagenfurt home these past several months. It's been an incredible experience to be able to take weekend trips to Vienna, Venice, and Munich while still having a home base and familiar faces to return to. I'm proud of the **[language] progress I've made since being here.** I started at the B2 level and now I can understand German movies without subtitles, and I was able to take and pass two economics classes taught and tested in German."

**University of Alabama (USA)**

# KLAGENFURT - THE PLACE TO BE

- ▶ The city is located at **beautiful lake Wörthersee** and surrounded by mountains
- ▶ In the heart of the Alps-Adriatic region, it is also **well-connected with many European cities** (such as Vienna, Venice, Ljubljana, Zagreb)
- ▶ Klagenfurt offers a diverse **cultural, art and culinary scene**
- ▶ Experience **ice skating** on the Lendkanal and explore the numerous skiing destinations nearby in winter
- ▶ Standup **paddling, kajaking and swimming** are only a few of the summer outdoor activities that await you at lake Wörthersee!
