

Studien über Popper

Studies on Popper

Karl Popper Archives, University of Klagenfurt

Compiled by Thomas Hainscho

Last update: January 2024

“Studien über Popper” (“Studies on Popper”) is category 1.14 of the bibliographic classification of the Karl Popper Library. The documents that belong to this category were not written by Popper himself, but by other authors. Some of the holdings in this category are kept in hanging folders due to their unusual format and are not recorded in the public library catalogue. These documents are listed in this index. They include, for example, typescripts, newspaper clippings, single issues of magazines and journals. Some of these documents originate from Popper’s estate and contain annotations and comments by him; others were supplemented by Klagenfurt.

The documents are available for research purposes only.

Please contact Thomas Hainscho and Nicole Sager (popper.bibliothek@aau.at) to view the documents on site or to request digital scans.
